This form provides information to help you understand the services we provide, the cost involved and what we do with the personal information we obtain about you. If you have any questions regarding this, please do not hesitate to ask.

Naturopathic Medicine is the treatment and prevention of disease by natural means. Naturopathic Doctors assess the whole person, taking into consideration physical, mental, emotional and spiritual aspects of the individual. The following outlines the therapies we may utilize:

Individual diets and nutritional supplements are recommended to address deficiencies, treat disease processes, and promote health.

Botanical medicine is a plant-based medicine that involves the use of herbal teas, tinctures, capsules, and other forms of herbal preparations for the treatment of illness and disease.

Homeopathy is a form of medicine that uses minute doses of plant, animal, or mineral origins to stimulate the body's ability to heal itself.

Asian medicine includes the use of acupuncture, Eastern herbs and dietary changes to eliminate disease and balance body functions. Acupuncture refers to the insertion of sterilized disposable needles through the skin into underlying tissues at specific points on the body. Eastern herbs may be given in the form of pills, tinctures, or decoctions (strong teas) to be taken internally.

Physical medicine refers to the use of hands-on techniques such as soft tissue work and spinal manipulation.

Hydrotherapy refers to the use of alternating hot & cold water applications to improve circulation and stimulate the immune system.

Lifestyle counselling involves identifying risk factors and making recommendations to help optimize one's physical, mental and emotional environment.

During your initial visit, your Naturopathic Doctor will take a thorough case history and perform a basic physical examination and, when indicated, may require blood and urine samples.

It is very important that you inform your Naturopathic Doctor of all disease processes that you are suffering from, as well as any medications (prescription or over-the-counter) that you are taking. If you are pregnant, suspect you are pregnant, or you are breast-feeding, advise your health care provider immediately.

Even the gentlest therapies may cause complications in certain physiological conditions. This depends greatly on the individual and the extent of the illness. Health risks associated with Naturopathic Medicine include but are not limited to:

- Aggravation of pre-existing symptoms during the healing process.
- Allergic reactions to supplements or herbs.
- Pain, bruising or injury from venipuncture or acupuncture.
- Fainting or puncturing of an organ with acupuncture needles.
- Muscle strains and sprains or disc injuries from spinal manipulation.

HEALTH APPRAISAL QUESTIONNAIRE

Name _____ Date _____

DIRECTIONS

This questionnaire asks you to assess how you have been feeling **during the last four months**. This information will help you keep track of how your physical, mental and emotional states respond to changes you make in your eating habits, priorities, supplement program, social and family life, level of physical activity and time spent on personal growth. All information is held in strict confidence. Take all the time you need to complete this questionnaire.

For each question, circle the number that best describes your symptoms:

0 = No or Rarely—You have never experienced the symptom or the symptom is familiar to you but you perceive it as insignificant (monthly or less)

1 = Occasionally—Symptom comes and goes and is linked in your mind to stress, diet, fatigue or some identifiable trigger

4 = Often—Symptom occurs 2-3 times per week and/or with a frequency that bothers you enough that you would like to do something about it

8 = Frequently—Symptom occurs 4 or more times per week and/or you are aware of the symptom every day, or it occurs with regularity on a monthly or cyclical basis

Some questions require a YES or NO response: 0 = NO 8 = YES
